Climate Transparency

G20 Brown to Green Report Seminar Launch

The Brown to Green Report 2018 is the **world's most comprehensive review of G20 climate action**. It provides concise and comparable information on **G20 country mitigation action, finance and vulnerability**. Developed by experts from **14** research organisations and NGOs from the majority of the **G20** countries, the report covers **80** indicators. It informs policy makers and stimulates national debates.

BROWN TO GREEN

THE G20 TRANSITION TO A LOW-CARBON ECONOMY | 2018

The event will launch the report and explore key aspects of South Africa's performance compared to the G20. The seminar will delve into key parts of South Africa's energy transition: namely, South Africa's coal transition and the state of the coal sector, the future of the electricity sector in light of the Paris Agreement, and what an alternative IRP for SA should consider, and the employment implications of the energy transition for workers.

Speakers: Jesse Burton, Bryce McCall, Guy Cunliffe, Faaqqa Hartley

Date: 28 November 2018

Time: 13:00 – 14:30

Venue: Seminar Room, Chemical Engineering Building,
Upper Campus, University of Cape Town
Rondebosch

For catering purposes, please RSVP to leza.soldaat@uct.ac.za by 26 November 2018
